

## Independent Fiscal Commission Logo

The logo of the Independent Fiscal Commission is designed to reflect its core mission promoting transparency, fairness, objectivity and accountability in how Jamaica manages its public finances.

At the heart of the logo is a scale, symbolizing balance and reasonableness in financial matters. The magnifying glass depicts the Commission's oversight role in closely examining government spending and budgeting. Below, the map of Jamaica reminds us that all this work is done in service to the country and its people.

The round shape and bold lettering show strength and independence, while the "2025" marks the year when the Commission was operationally established.

Overall, the logo stands for robust oversight and a commitment to ensuring Jamaica's finances are managed prudently for today and for future generations.
